

Diary Website - Sprint Retrospective Notes

Team: P03-01

Sprint: 3

Date: 30-05-2020

Attended: All the Team members

Scrum Master: Hikansh Kapoor

Product Owner: Prutha Kothari

Development team: Karan Chevli, Yash Patel, Vishnu Bhatt, Harshit Singh

1. Things That Went Well

We were able to complete 2 sprint backlog items with high story points that were User Transaction History (PBI 7) and Delivery options (PBI 11). We now have some extra features added to the website through which a user is able to select from various delivery options and also track his purchases.

2. Things That Could Have Gone Better

As this was our last sprint before submission, we couldn't complete the other items that were listed and hence we will be taking these items in the further sprints.

3. Things That Surprised Us

We added almost every remaining item from the product backlog in this sprint but we realized that it's almost impossible to complete all these items without having a sound knowledge of the tech stack. Hence, we ended up with those items still on our TO-DO list.

4. Lessons Learned

Learned how to track the history of users from the database. We realized that our initial setup needs to be changed in order to complete further tasks.

5. Final Thoughts

Tasks which are completed need to be reviewed by the product owner and if implemented correctly we will move forward with the remaining tasks.

Uncompleted tasks are moved to the next sprint
